

Please keep the no call list in WI

Before the list, we were constantly bothered at meal time and evenings, as late as 10 o'clock, now we are still bothered with surveys and such, but not like before, we were thinking of taking the phone out of the house, just to get some piece, why should we pay for a phone, and have to pay extra to keep unwanted people from calling us? It was even worse for my mother, who was in her 80's, she would get these calls, and she was hard of hearing, so she didn't understand everything they were telling her, and if she said the word (yes) she got slammed with all kinds of things, and she did not realize what she was getting into, by alot of times just saying yes, she would like to save money.

Please keep the no call list in place, in fact make it stronger, with more punishment for abuse.

Thank you
